

Company history.

Montefeltro Luce Srl was founded by lighting professionals for kitchen and bathroom furniture. With thirty years of experience and the constant search for innovative and customized solutions in the furniture and layout sector, Montefeltro Luce is the ideal partner for any development of electrical solutions..

Born in the heart of the old Montefeltro, placed at the heart of the industrial fabric of furniture, Montefeltro Luce has exported its experience and thanks to its network of specialized agents, is always in contact with the manufacturers and specialized distributors of the furniture industry.

Creativity and Integrated Design.

Creativity and integrated design in 5 concepts (Diffusione, Metaluce, Bicompo, Specchio Tuo, Futurluce), are the two essential foundations of our Made in Italy that allow us to bring you different lighting solutions.

Our strength is based on 7 major assets.

- A commercial service always at your disposal, able to answer you in French, English Italian and Spanish.
- An efficient technical service, always in synergy with the sales department, who knows how to carry out your specific projects and accompanies you throughout your developments. We design our products, industrialize them and homologuons according to your needs.
- The specialized assembly workshops, with a capacity of more than 200 people, allow you to produce customized products in a short time.
- The computerized manufacturing management controls the entire production process. Real time management of your order is our strength. A steadily expanding storage capacity (today more than 1,000 m2) allows us to respond quickly to your orders.
- An internal quality system, developed over many years, which allows us to control the entire production process your orders.
- International transport management allows us to respond to different parts of the world. A quality that allows us to be present throughout Europe and to deliver on time.
- The presence at international fairs, a privileged meeting between you and our company, is a fundamental point of our communication.
